# INTRODUCTION

## Where It All Began

The story of The Art of Klay begins in Patna, with a young girl and a brush full of dreams. Shruti Nandan's creative spirit was nurtured early by her grandfather, Dr. Lala Suraj Nandan Prasad—a physician, mentor, and believer in her talent.

At the age of eight, Shruti painted a message that would echo through her life:  
"Nothing Succeeds like Success. Success Makes Fools Look Wise."

Years later, that vision took shape as The Art of Klay, founded in November 2024—an ode to health, sustainability, and art. From handcrafted ceramics to conscious living, every piece is a tribute to artistry and purpose.
